Before the course of the Elbe could be changed, so as to sheer it off from the approaching steamer, the latter struck it just about the engine room, going through the plates as though they were pasteboard and sticking its nose almost completely through the hull of the Elbe.

For a time the Crathie held the Elbe on its nose, but then its engines were reversed and it backed out of the aperture it had made. As it did so the water rushed into the Elbe in a torrent and it immediately began to settle.

The officer in charge of the ship at once saw that it was doomed and gave hurried orders to clear away the lifeboats for launching. Three of the boats were cleared and lowered, but one of them shortly after it got clear of the steamer capsized, and it is thought that all occupants were drowned. Question Is Raised Concerning His Citizenship-New Bills to Allow Councils to Change Boundary Lines of Wards and Issue Bonds For Certain Purposes-Madison News.

Madison, Jan. 31-The appointment

of Dr. J. L. Scott of Beaver Dam as State Veterinary Surgeon was not confirmed this morning as a question as to his citizenship was raised. This WAS expected that who claim confirmation has always been a good deal uncertain. Yesterday afternoon Gov. Upham gave the case another hearing. Committees of various kinds have waited on the governor at intervals ever since-some in favor of Scott and some against him. The main charge brought affects the question whether he is a full citizen or not. Beneath this is the insinustion that when he first declared his intentions it was with the idea of voting the democratic ticket. If Scott does not get the job Dr. E. D. Roberts is said to be next in line.

Among the important new bills was one allowing common councils to change the number and boundaries of wards and to condemn lands for sewerage purposes and allowing cities to issue bonds for the purchase of gas, electric light and water plants.

Other bills were presented; imposing a five per cent tax on all collateral inheritances of more than \$10,000; creating a fund of \$50,000 for the use of the state board of health, to prevent the spread of cholers and other contagious diseases; naming local game wardens agent to stock local waters with fish.

THE HAYWARD TRIAL IS BEGUN The States Attorney Details the Killing of Catherine Ging.

MINNEAPOLIS, Minn., Jan. 31.—The and last man was secured yesterday in the person of John Dunn, a Dayton farmer.

The event of the day was the opening speech of the case by the state. Special Assistant County Attorney Hall made this address. He first dwelt upon the heinousness of the killing of Catherine Ging, describing the crime in etail. He showed how the only person in the world who cou'd have had an interest in her death was Harry Hayward. It is evident from his speech that Claus Blixt is to take the stand as a witness against Hayward. He said the evidence of the state would consume about two weeks.

William Ertardt was the first witness put on the stand and he related how he found the body and how he passed a team shortly before he reached it. Attorney Erwin tried to cross examine him into damaging admissions but failed to do so, with the exception that Erhardt stated that he did not know positively that there was any connection between the horse and carriage and the murder.

FALSE CLEW TO A MYSTERY.

Wesley Tabor Denies Knowing Anything About the McClelland Case.

CENTRALIA, Ill., Jan. 31 .- The Mc-Clelland pond mystery fell flat again yesterday. The revival of the case was brought about by Mrs. Tabor, a member of the Mount Vernon branch of the Salvation army, telling a friend she knew who assisted in the killing of the two McClellands whose remains were supposed to have been found in a pond near this city over a year ago. This word got to the grand jury and they sent for the woman, who testified a former husband of hers, now a resident of Belleville, was the guilty man. The man Wesley Tabor was brought to Salem on a bench warrant yesterday and taken before the grand jury, where he denied knowing anything of the case, claiming that he was a resident of Springfield at that time, and asserted it was a case of spitework on the part of the woman. This will probably end the case, as the grand juries have now failed to get any evidence to warrant the finding of an indictment.

A financial the first he has expressed in the senate has been agreed upon by the banking days of earnest work. It will be reported to the house and a rule secured limiting the debate, which will begin Monday. It is strictly a non-partisan measure. It will probably pass the house, after bitter opposition. Changes made are as follows: The bonds are made payable after ten years at the option of the government. The requirement for paying customs in gold is dropped. Bank reserves are required to be held in coin, increasing from 1.10 to 1.2 gradually, and half of the coin must be in gold. The tax on national bank fourth of 1 per cent, and this latter amount is made payable in semi-annual installments. This is for the purpose of inducing national banks to take out circulation. The existing laws restricting rapid increase of circulation are repealed for the same purpose. The greenbacks are to be retired only as rapidly as bank notes are issued to take their places, thus preventing contraction of the currency. The original proposition to retire notes below \$10 and substitute silver certificates is eliminated from the bill as amended.

Jerry Simpson, the Kansas populist, however, objected and prevented the telegrams receiving public recognition. In the senate, however, Senator Cullom secured their introduction with leave to print in the record.

VEST SAYS ADIEU,

Parting of the Ways Comes on the Great Financial Question.

WASHINGTON. Jan. 31.—The session of the senate yesterday was unusually eventful in giving expressiou to the intense feeling which has been aroused by the financial question. Mr. Shersince the new phases of the financial situation were presented. Mr. Vest lent a personal interest to the debate by declaring that the President was seeking to make congress accessory to the welding of the single gold standard on the people. The senator asserted with dramatic emphasis that he had thus far held his peace, but that there must now be a separating of the ways between him and the President.

When the session opened Mr. Cullom rep., Ill.) presented a dispatch from all the leading banks of Chicago urging that the President's recommendations be carried out at the earliest day

Mr. Vest (dem., Mo.) followed with a similar dispatch from the St. Louis chamber of commerce. This was the text for one of the most stirring scenes the senate has heard in many days. Mr. Vest said the chamber of commerce of St. Louis did not represent the feeling of the people of Missouri or of the country on the financial question. He did not believe the people favored a retirement of \$500,000,000 of greenbacks and treasury notes and the sub stitution of no currency at all. He did not believe they favored gold obligations running fifty years with interest aggregating \$75,000,000 at the end of that time. was a selfish suggestion that posterity should be left to pay this bad debt. The senator asked if any man really believed the supposed emergency could not be met by treasury payments in silver. And yet the impression was being conveyed to the public that the country was on the brink of ruin. If the President had the power he would force us to the single gold standard. "But," said Mr. Vest impressively, O'NEILL, Neb., Jan. 31.—Henry and raising his right hand in The small boat containing the sur- guard during 1894 and to provide an Schmidt, who drove the Scott rig emphasis, "so far as I am convivors tossed about until 11 o'clock in appropriation of \$190,000 to rebuild the the night of the lynching of Barrett cerned I will never vote to issue bonds Scott, positively identified Moses to secure gold and place us on a single gold standard." In answer to a question the senator said he did not believe there was the slightest possibility of the finance committee agreeing on any measure to report to the senate. He also declared the revenues of the

oppression. "It is not pleasant," he continued, "to differ with the head o" my party. I have remained silent for many months in order not to add to the discord within our great party. But we have now reached the rarting of the ways. I will go no further." Mr. Vest closed with the emphatic declaration that party fealty could never lead him to aid in fastening the gold standard on the country.

Mr. Wolcott said this was just such another plan as that adopted more than a year and a half ago to force the repeal of the silver purchasing act. Now, as then, lying reports of prosper-Washington, Jan. 31—The house ity to follow congressional action were sub committee on the Nicaraguan bill being circulated with a view to influstandard more thoroughly on the people.

When Senator Sherman rose to give his views on the financial situationoul based on the President's message for some time—there was a buzz of expectation and interest. "We have and currency committee after only two | reached the point," said he, "where we are being told that no relief wili be given to the country until we had conceded the free coinage of silver." He believed that such an absolute concession would be a greater disaster to the country than any other course that could be adopted. If there was to be a choice between the two coin standards, then the senator believed in taking the one which was recognized the world over as the best. But he still believed that both metals could be used. He appealed to the finance committee to act at once. The people had plenty of notes is reduced from 1 per cent to one money. They had now \$1,600,000,000 in small savings in the savings banks. Give the plain people, the laboring people, a chance to meet this so called emergency and they would supply the deficiency in two days.

Mr. Hill said the first duty of the senate was to ascertain what was wanted by the administration. He introduced a resolution directing the secretary of the treasury to inform the senate whether it is necessary or desirable that legislation should be had authorizing the issuing of bonds, treasury notes, or other securities to realize moneys for reserve at once is apparent to the the purpose of paying current deresolution be considered immediately. his wife for the first time in June but Mr. Allen (pop., Neb.) objected when they were fellow passengers on and the resolution went over until to-

Rev. Dr. E. L. Eaton is in the char ty ball fight to stay. Criticism has stirred him.

Next Sunday-well, next Sunday, there will be all kinds of trouble.

A reporter visited Dr. Eaton yesterday afternoon and said: "Is there anything in your address

that you wish to retract or modify?" "Retract! Modify! Say, come up and hear me next Sunday night. I'm going to preach on dancing in general and charity balls in particular. The Rev. H. What the Genial Philosopher Really Means.

Other Equally Eminent Men Differ From His Views.

A Question Involved Each of us Must Decide.

A Letter of Powerful Interest to Our Readers.

The eloquent Robert G. Ingersoll, in a recent communication to the New York World, takes the ground that suicide is not always a sin. New York's most eminent clergymen, statesmen and judges, immediately filled the columns of that paper with er's theory.

What Mr. Ingersoll really said and meant was, that under certain circumstances suicide was not a sin. For instance, he thought in case of a person such suffering by self-destruction.

Mr. Ingersoll's idea was the humanitarian one of arresting pain. But he forget that it is often dificultnay impossible to draw the line when a disease is curable or incurable.

Mere suffering should not be a war rant for self-destruction. Countless cases of terrible, yes, excruciating moral welfare. He said no material more generally successful than those made it and I'll stand on it to the end. suffering, have been cured even after pronounced the disease incurable. A POSITION OF HONOR FOR THE JANESVILLE MAN.

Appointment Was Made By Governor Upham Yesterday-H. C. Adams Appointment Will Help C. L. Valentine-New Ruling On Board of Control Appointments.

Ogden H. Fethers has been appoint. ed one of the members of the board of regents of the state university. Governor Upham made the announcement yesterday, the other members being H. H. Cheynoweth, Madison; Orlando E. Clark, Appleton; William A. Jones, Mineral Point; and Frank Challoner, Oshkosh.

Janesville people, who have been much interested in the fight for the position of state dairy and food commissioner will read with interest that it it is authoritatively announced that protestations against the great think. H. C. Adams of Madison, is to be dairy and food commissioner to succeed Thomas Luchsinger. The appointment has been determined upon by Governor Upham and Mr. Adams' name is likely to be sent to the senate suffering with sickness and hopeless tomorrow. This move is said to be of of a cure, it would not be a sin to end a good deal of significance inasmuch as it will advance the chances of C. L. Valentine for the appointment of state game warden.

Another ruling which it is expected will make the prospects of Janesville candi ates for positions on the state board of control much brighter is the one advanced by Governor Upham yesterday when he announced that he had reached the decision that no appointments are to be made from cities where a congressman or an elective state officer has his home. The exist ing law provides that no two members of the board shall be from the same congressional district.

Rock county will be represented at the meeting of the county superintendents of schools which will be held tomorrow.

Assemblyman Ed. F. Hansen of Beloit yesterday introduced a bill to remove doubt regarding the restricting of wards in cities, and making it optional with cities to create Boards of School Commissioners.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Yewell, well known as a .riter as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d. N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important zircumstance he writes as follows:

"Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a prepination of the qualities required in a prep-ration of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and tone up the system wonder-ully. We say to all, try these remedies."

HIS LAST CRIB.

"I ain't," observed Burglar Joey Brown as, wheezing and gasping, he struggled through Lord Heathington's scullery window, "I ain't as narrer as I used to be when I fust entered the purfession, not by a long chalks. I'm puttin on flesh, that's wot I'm doin. and it's time I left off burglin and ladyship is out 'er town. Very well, took a pub. Lawd, but that's made me | then. handkerchief from one of his suspiciously capacious pockets and wiped selves, since there ain't no children or his face with energy. He was an old guests." hand at the game, was Joey. True, he had been "quodded" once or twice, but what of that? Every burglar whose soul is in his work must expect to be 'quodded" occasionally during his career. Besides these doses of "penal" afford time for reflection and rest.

Joey had made his way cautiously from the mews which lay at the back of Lord Heathington's town residence, and when he had reached the small courtyard which separated the stables from the main building the rest had been easy, and here he was in the scullery.

Joey rubbed his face until it shone like a copper kettle and then returned the handerkchief to his pocket.

"If this 'ere exploit," said Mr. Brown, addressing the tubs and bowls around him, "turns up trumps and brings in the dibs, well"—with a satisfied chuckle-"Joe Brown and burglin will part company. Joe Brown is gettin too fat for this kind er work. And now, as Macbeth observes in the play, 'Let us away,' and inspect 'is lordship's valyoobles.

Joey, whose boots, it is hardly necessary to explain, had been left in a shady corner of the mews, made his way noiselessly out of the scullery into the kitchen and thence into the corridor.

"These footmen," said Joey, who seemed to be perfectly acquainted with his whereabouts, "snore like 'ogs. I might do a 'ornpipe in boots 'ere and never be 'eard with that hawful row goin on."

After looking in on the slumbering footman for a moment Mr. Brown proceeded on his way and ascended to the

"They've several little articles in the drorin room wot I want to inspect," he murmured, "after which we will pay our custom'ry wisit to the plate closet." Joey made his way quietly into the

drawing room, but before annexing anything of value he deposited himself

upon a divan and grew poetical.
"Just to think," he murmured, "on'y this one crib, and then I've done with the purfession forever. Little pub in the country-shady medders-cows and sheep baain-new laid eggs and milkthere will Joe Brown spend the hautumn of his days—the evenin of a useful career. 'E will go to church, be a churchwarding." Here Joey gave vent to a most unctuous chuckle. "Just fancy, Joey 'andin the bag! Oh, wot delights are in store for Joe Brown when 'e retires from business! It won't be long afore there's a Mrs. Joseph either. Wot, oh, wot is home without a mother? And now, Joe, you must gag a bit and get to work on these 'ere golden''-

Creak! Joe sat up with a start, and then, with wonderful alacrity for a man of his bulk, left his seat and slid behind a screen which stood near him.

Creak! "Somebody on the move," said Joe softly. "There's a door goin." He listened intently, and his quick ears soon detected the sound of footsteps crossing the hall. Arrived at the foot of the staircase, the person, whoever it was, began to ascend, upon which the burglar left his place of concealment, crawled to the door and peeped out.

"'Is lawdship!" Joe quickly got back to his screen and decided to give the master of the house a good half hour in which to get to bed and to sleep. "That was a narrer shave," he soliloquized. "Supposin I 'adn't 'eard 'im and 'e'd come plump in 'ere and found me restin on 'is sofay! W'y, it 'ud 'ave meant goodby to the pub and 'ow ore yer?' to the Scrubbs or Portland. This ought to teach you, Joey, that, like other wocations, burglin is never entirely learnt Now, suppose we"-

Creak! "Some one else abaht!" was Joey's classic utterance as he once more crawl-

ed to the door and peeped out. There was some one else about. As Joey peeped out a tall, dark man in evening dress issued from the room facing that which was honored with Mr. Brown's presence and stood for a moment examining something which glistened in the moonlight, for, contrary to Joey's expectations, the moon had disengaged herself from the clouds which had previously enveloped her and was now shedding her soft light on the

world beneath her. Whatever the thing was that he was examining the man put it quickly into then made his way to the staircase. The talking was evidently going on in a bedroom which opened into a corridor that lay on Mr. Brown's right hand, and so, with the utmost caution, the burglar crept softly down the passage until he reached a door that was partly ajar. A little investigation served to show Mr. Brown that the chamber to which the door belonged was a dressing room, and that, furthermore, the dressing room opened into the bedroom in which the conversation was taking place. Very stealthily the housebreaker entered and crawled to the bedroom door. Arrived there, he experienced no difficulty in hearing every word that was spoken.

I won't stand your blackmailing any longer. Now, you can leave this room and my house as soon as you like." The younger man uttered a fierce im-

"If you won't give me what want," he shouted, "I'll find a way of making you."

"As you see fit to descend to vulgar threats," returned Lord Heathington quietly, "I shall have to have you put out of the house."

So saying, he advanced toward the bellrope and was about to pull it when his brother sprang forward, and being by far the more powerful of the two knocked him down with one blow of his fist. Then, as Lord Heathington at tempted to rise, his relative dropped on to his knees and held him down by

"Help! Help! Murder!" exclaimed the prostrate man in half stifled tones. Joey, looking through the door, saw the younger man put his hand inside his coat and draw a shining object from his pocket-the same object that he had examined so intently in the hall. Joey was not an individual possessed of much virtue, but he was an Englishman, and in common with his countrymen was always inclined to side with the weaker party when any struggle was going on. He knew that any interference on his part would lead to his detection and subsequent arrest, but he did not allow that thought to deter him from the course of action which he resolved to take. He saw the uplifted weapon. He heard Lord Heathington's cry of "Murder!" and he could see the diabolical look on the face of the other man. Joey took in the situation in a moment. The events of a few seconds take some minutes to describe, and it must be remembered that the occurrence we are describing was of less than a minute's duration from first to last. It was a large room, and between the door and the struggling couple was a huge four poster.

Joey, on seeing the uplifted weapon, snatched a pillow from the bed and threw it with all his force at the would be murderer's head. Then he sprang across the bed and grappled with him ere he had time to take his brother's life.

With an exclamation of baffled revenge Lord Heathington's brother turned on the burglar and buried his dagger-for the weapon was a poinard of Italian make, which usually hung on the wall of Lord Heathington's studyin Joey's side. Simultaneously the burglar dealt him a tremendous blow on his head with a jimmy, and when the frightened domestics, aroused by their master's frantic tugs at the bellrope, arrived on the scene they found house breaker and peer's brother lying side by side, the first dying, the second only unconscious.

An hour later Joey recovers con sciousness, thanks to the efforts of the doctors who were hastily called in. Lord Heathington's brother, dangerously but not mortally hurt, lies in his own room. Joey himself rests on his lordship's bed. His life is fast ebbing away, for the

physicians say that they cannot save it. Lord Heathington, eternally grateful to the man who has saved his life, sits by the bedside, anxiously watching the sufferer's face.

Joey's lips move, and the peer bends the inside pocket of his dress coat and over him and listens for what he would

BROOKLYN'S WEAK OFFICIALS.

Much demagogery has been brought

to light by the investigation of Brooklyn's railroad trouble. Instead of taking prompt action for the preservation of peace and the protection of life and property-instead of antagonizing the strike, that is to say, and manifesting a determination to enforce the laws at all hazards—the city authorities dallied with the disorderly elements and thus encouraged them to persevere in their rash and insurrectionary proceedings. The police force was ample to meet the emergency if it had been employed at the right time in the right way. It was the fault of an incompetent chief of police and a weak and demagogic mayor that troops had to be called out. The strike had been in progress for a week when the step was taken, and nothing creditable had been done by the city officials in the way of asserting their power against the turbulent organization. Their neglect of duty was equivalent to an expression of sympathy with the strikers, and the join our Browning society this winter?" strike accordingly grew more formidable every day. If they had done what justice and propriety required of them, the difficulty would have been quickly

ONE NEEDS THE OTHER.

Here is the practical fact that is thrown into greater relief by each day of the Cleveland administration:

A policy that antagonizes the manufa:turing interests of the country is sure to be detrimental to all other interests.

Governor McKinley put the same maxim very tersely the other day when he said: "If commerce would my lap."—Chicago Tribune. thrive, manufactories must flourish: if agriculture would enjoy active markets and good prices, there must be conceded to enterprise and skill in manufactures just returns for hazand and outlay; if artisans would receive good wages, they must be willing to pay fair prices to mechanics and farmers." This is the view of the matter that the people indersed in the November elections. They have seen and felt enough of democratic tariff reform to satisfy them that it is a monstrous fallacy and a great misfortune. The contrast between the present situation and that of a few years ago is an object lesson that the average citizen can readily comprehend.

There are about 1,300 Indians in the Osage tribe, and the government holds in trust for them the sam of \$8,500,000, or over \$6,500 per head. Nevertheless, they are supported at the public expense, like so many destitute persons, while there is a constant howl about pensions paid to keep Union soldiers out of the poor houses.

Texas is preparing to celebrate the semi-centennial anniversary of her admission into the Union, and the St. Louis Democrat remarks that one of her main causes of thankfulness will be the fact that she didn't succeed in her attempt to get out of it.

It is reasonably safe to say that there will be no important currency legislation by the present congress. The failure of the Carlisle bill practically ended the matter, and it is not likely that any other measure will be seriously considered.

Governor Upham has honored his administration in adding to the board of university regents, Ogden H. Fet ers. A man of cultivated tastes and broad sympathies, Mr. Fethers will be of infinite value in administration of university affairs.

The trea ury situation has often been worse than it is now, but it is bad enough to shame congress into doing something to relieve the strain.

A New York newspaper reports a brief colloquy between a woman and her lazy husband. She was busy and the baby was crying, and the man, so far as appears, was doing nothing.

"John," she said, "I wish you would rock the baby." "Oh, bother," was the answer. "Why

should I rock the baby?" "Why, because he isn't very well, and I have this mending to do. Besides, half of him belongs to you anyhow, and

you ought to be willing to help take care of him."

"Well, half of him belongs to you, and you can rock your half and let my half holler."

Floyd D. Murdick opened their eyes when Mr. Murdock's account was balanced and it was found that a forgery Fresh Cut had been committed. The forged check was for \$50, being dated December 20, 1894. The forgery was not discovered until Tuesday, when, in looking over his cancelled ehecks Mr. Murdock's attention was attracted by the little piece of paper, which was unlike the checks he wat in the habit of using, although it was on the First National. Mr. Murdock was in Chicago on that date, and his business was left in charge of his brother, who drew several checks, using his own name. The bank officials have been keeping the matter quiet in hopes of capturing the forger, but so far their efforts have been unsuccessful.

Individual Communion Cups.

A decided innovation on the ordinary communion service has lately been made in several Rochester churches by the introduction of individual com-

Poor Indeed!

The prospect of releif from drastic cathartics for persons troubled with constipation is poer indeed. True they act upon the bewels, but this they do with violence, and their operation tends to weaken the intestines, and is prejudi-cial to the stomach. Hostetter's Stomach Bitters is an effectual laxative, but it neither gripes nor enfeebles. Furthermore, it promotes digestion and a regular action of the liver and the kidneys. It is an efficient barrier against and remedy for malarial com plaints and rheumatism, and is of great benefit to the weak, nervous and aged. As a medicinal stimulant it cannot be surpassed. Physicians cordially recommend it, and its professional endorsement is fully borne out by popular experience. Appetite and sleep are both improved by this agreeable invigorant and alternative.

"Nothing Venture, Nothing Have." Rev. John Reid, Jr., of Great Falls, Mon., recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."-Rev. Francis W. Poole, Pastor Central Pres. Church, Helena, Mon.

It is the medicine above all others for catarrh, and is worth its weight the Hannibal & St. Joe railroads; in gold. HOW TO MAKE YOUR OWN DRESSES

IMPORTANT FACTS TO NOTE IN FIN-ISHING A BASQUE.

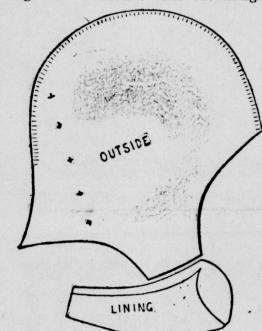

Careful Pressing of Seams Helps to Secure a Perfect Fit-How to Make Draped Collars, Lapels and the Fashionable Gigot and Puff Sleeves.

Copyright, 1895, by American Press Associa-

tion.] When the model lining has been basted, try it on and leave the seams on the outside. With pins take in all the seams until they fit the figure perfectly and then iron the seams flat, with the pins still in, which will mark the seams for future use. After this trim off the superfluous stuff and cut a pattern from muslin or paper for future use, as it will save much time. The lining should then be placed on the material, the front coming even with the two selvage edges. The side pieces and backs can all be cut out of one width by a little careful management if there is no up and down to the stuff. If there is, it will require more goods. The lining and outside are now to be basted firmly together, each piece separately, after which the whole bodice may be basted again to be tried on, this time right side out, and all the seams trimmed neatly. If the waist fits-and it will if properly basted-it can be seamed up. The seams should be taken on the outside of the bastings, as they are elastic, being loose, and therefore they

The seams should be pressed apart and the bones sewed in. Each has her own preference about the sewing in of bones. They can be bought now ready prepared, and all that is necessary is to sew the edges of the tape to the pressed seams. The finishing of the waist is now so widely different in different cases that only a general idea can be given. Basque waists are faced up and pressed, and whatever styles or kind of trimming there is may be set on afterward. Few dresses now, except tailor gowns, and they not always, have buttons. They close invisibly by hooks and eyes. Lapels are just now favorite trimming on waists. They are acute triangles in form, lined with stiff wigan and faced with some kind of silk. The outside may be of the dress material or of velvet, moire, or, in fact, any suitable material. The great object is to have them stiff. Some dressmakers wire the edges. Every seam should be pressed with a hot iron, except silk and velvet.

The collar and the style of closing the front differ so greatly that no set rule can be given for them all. The one thing to

GIGOT SLEEVE WITH TIGHT LINING. remember is that accuracy is the turning point between a clumsy and a perfect

gown. The draped collar is the favorite at present and is made by having a stiff lining and silken facing, with whatever is used for the outside crushed or shirred over the outside. A small rosette may fin-

ish the collar.

Where there is a full vest front effect desired, or a drapery of any kind arranged on a waist, the lining should be fitted and finished to boning first and the rest done

At the present moment the sleeve is the distinguishing point of the costume, and it is enormous. It requires 11/2 yards of 54 inch goods to make a pair of gigot sleeves, and even then the corners often have to be pieced, but that does not show in the folds. The lining to a gigot sleeve is exactly like that to a loose coat sleeve. The outside is to be gathered around the top until it is reduced to the size of the lining, and then the edges are overcast at the top and the rest pasted as usual, and the seam taken up, and the wrist faced and pressed. The diagram given here shows an ordinary gigot sleeve. From shoulder to wrist in the highest part it measures 39 inches and in width 38. If it has to be pieced, the proper place to piece it is the underarm part marked with a line of X marks. If a mousquetaire is desired, the shape of the upper part is the same, but the lower is cut two inches wider and six longer, and these gathered and tacked along bring heavy wrinkles all the way down. If the gigot sleeve has the upper portion extending up ten inches from the OO marks and laid in a flat plaiting, either knife or double box, covering the shoulder seam and reaching to the collar, while the rest of the sleeve is sewed in the usual style, it will be quite the newest thing. This is very dressy with the blouse waists now so fashionable and gives the Garibaldi effect.

Balloon puffs are much liked for home wear, and they are made by gathering a full piece of material to a coat sleeve lining, which has the lower portion made of the same or a contrasting color. The variation in sleeves, however, are all based upon the coat sleeve foundation and are so largely a matter of personal taste that it is not necessary to enlarge upon them. A few general remarks may be made, however. The sleeves for dress occasions may be of a number of tulle or chiffon ruffles over a foundation in coat form. The light silks are made in puffs four times the length of the upper arm and four times the width of the sleeve lining. All this fullness is then draped up in rich folds, enough to bring it into partially reasonable dimensions. It requires nine yards of 24 inch silk for these puffs and one yard for the forearm pieces.

The Rule For Salted Almonds.

The thrifty woman can prepare her own salted almonds according to this rule: Shell, blanch and dry half a pound of almonds. Laythem in a clean tin pan, with a couple of teaspoons of butter, and put them in a rather hot oven. Shake the pan frequently, that the almonds may color equally. When of a uniform light brown, take them out, drain them in a colander on brown paper and sprinkle them lightly with salt.

THE NEW CAPITOL AT HARRISBURG, PENNSYLVANIA.

The new capitol of Pennsylvania is a magnificent piece of work both from an architect's and an artisan's point of view. It is built in the purest style of the Italian renaissance; it is perfectly proportioned in every detail, and embodies in white stone the highest form of creative art and mechanical skill. Apparently one edifice, it practically consists of two distinct buildings. as the new state library, with a capacity of 500,000 volumes, is entirely separate from the executive department, the only inside communication being through a private door. The executive building has a front of 120 feet and a depth of 105 feet. It is entered from a semi-circular portico, supported by Ionic columns. The walls of the immense vestibule are lined with polished Sienna marble, which contrast well with the elaborately carved pilasters of Caen stone that support a half-groined ceiling, beautifully modeled and paneled in stucco. The vestibule opens through an arched doorway into a long hall 45 feet high. Half-way up is a gallery running the entire length of the hall. The gallery is supported by carved columns and arches. The architrave and frieze are elaborately carved. There are heads of the Indian, the African, the Oriental; of fauns and satyrs: of Penn, Meade, Franklin, Mifflin and Wayne; and life-sized eagles with extended wings. The walls of the hall are lined with light Numidian marble set in a base of pink Georgian marble. Each wall is broken into panels by pilasters and bands of richly carved Caen stone. All of the doorways in the building are arched and carved. The cost of the new building was \$800,000.

DEBS DOESN'T LIKE IT. Thinks Judge Grosscup's Ruling Hurts His Case.

CHICAGO, Jan. 31.—Counsel for Debs and the other American Railway \$503,507.94; concessions, privileges, etc, Union defendants in the conspiracy trial admitted yesterday that Judge 83 was expended. The total cost of Grosscup's ruling in the Myron matter, whereby the connection of the directors of the American Rail- amounting to about \$39,000 and money strikers might be introduced, was leaves a surplus of \$23,464.44. The dogood law, but they still cling to the ruling in some minor details. Attorney | are valued at \$121,218.45. Gregory submitted a number of authorities for the information of the court. Judge Grosscup may make a supplemental decision, but it is scarcely probable that he will establish a precedent contrary to the ruling of Tuesday. Should the court decide adversely to the admission of such evidence, it is claimed that it would end the case for the prosecution and result in a verdict for the defendants. The claim will be urged by the attorneys for the defense during the progress of the trial that constructadmit in a criminal trial. Under the made much easier. It will be the a month. policy of the prosecution to introduce as much "overt act" testimony as possible.
